

California OES Weather Threat Briefing

Monday, November 16, 2020
9:00 AM PDT

- **Day 1 (Sunday):** Rain and high elevation snow continues across northern CA along the OR border and across much of NW CA. Minor flooding is possible across far northwestern CA today. Minor coastal flooding is possible along the central and northern coast. Elevated to briefly critical fire weather conditions expected in southern CA

Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

11/16/20 - 11/22/20

Monday-Wednesday

- Periods of strong, gusty winds will continue into mid week across portions of both northern and southern CA
- A break in precipitation is expected today, but rain and mountain snow will return to northern CA Tuesday and Wednesday
- Elevated to briefly critical fire weather conditions across southern CA mountains and valleys early this morning, and then again tonight through Tuesday morning, due to gusty Santa Ana winds

Thursday-Saturday

- Precipitation will taper off on Thursday, with just mountain snow showers over the Sierras.
- More quiet weather is expected for late Thursday into the weekend
- A period of stronger NW winds is possible in southern CA late Thursday through Saturday.
